## Profile

Mattias Johnson is the managing partner of the Zug office. In addition to being a civil law notary in the Canton of Zug with many years of experience, Mattias Johnson deals principally with questions of transactional and corporate law, often in a cross-border context.

Besides his notarial work, he advises companies on the structural aspects of their internal organisation, supports international firms in general commercial law matters, and advises them on immigration and employment law issues.

Mattias Johnson joined our firm in 2001 and became a partner in 2010.
